### THAT SIGN AGAIN!

If you don't believe that sign puts Hondo on the map, just read the letters that Harry Filleman at the Chamber of Commerce has received wanting postcards after the story ran in The Texas Star. They are in this issue somewhere.

Which also brings me to a note I received some time ago from Joy L. Tilley concerning the history of the sign. It reads:

"There is no doubt about W. N. Saathoff being the author of 'This is God's Country, Don't drive through it like Hell.'

"I recall that the Courthouse Clerk tried to beat him one year. They branded him as a hypocrite because of this sign. They did not succeed.

"I am 84; taught school 40 years in Bandera, Atascosa, Frio and Medina counties."

Anyway, if the letters keep coming in, Filleman says we are going to need a new order of cards. So keep them cards and letters coming in, folks. We want to let the whole world know where Hondo is located.

### COINCIDENCE

Had a note from the boss, Bill Berger, telling me he "saw Audrey Schweers of Hondo who is working in the Waco News Tribune office."

Seems Bill was in Waco speaking to the Waco Advertising Club when he met Miss Schweers.

The funny thing is Patricia and I sat behind her parents, Mr. and Mrs. Frank Schweers, at the Hondo-Devine game.

We mentioned the fact that we had been in Waco for an advertising clinic and Mrs. Schweers told us about Audrey working for the News Tribune. She said Audrey also is taking some classes at Baylor and is really interested in "sky diving".

Naturally, we asked if she is just interested or actually performing. And her mother quickly said, "Performing".

In my time I have flown just a few miles in airplanes. And on occasions I have naturally worn a parachute. Some times I have wondered if we were going to make it down in the plane--but EVERY time I dreaded the thought that I might ever have to jump one of those birds.

So good luck Audrey, and we're glad to hear of someone from Hondo doing their thing in the newspaper business.

### DON'T FORGET

The youngsters pushing the Recycle Our Trash project will man their collection stations from 9 a.m. to 1 p.m. Saturday. They are on 18th Street.

### NO, THANK YOU!

I hope I never experience the shock of being told that the airplane I am on might have a bomb on it.

But that's what happened to Mr. and Mrs. ... Please Turn To Page 3

### Leads Owl Band

LACY GILLIAM, senior Hondo student, steps out smartly every Friday night to lead the Hondo Owl Marching Band through its paces. This week the band will present an updated version of the patriotic halftime fans raved about last year. Lacy, the son of Mr. and Mrs. Harold Herring, plans to study at Texas A&M University.

### MORE RAIN?

Doc Taylor says that the moon will change about 1:59 a.m. on Tuesday--and it might rain some more.

# Eight classrooms on planning board at HHS

Instructions to proceed with plans for a new 8-classroom addition to the Hondo High School were given the

architect Tuesday night by the Hondo Board of Education.

The new air-conditioned

addition will include eight classrooms, seven of the approximately 700 square feet and one about one-fifth larg-

er to accommodate a typing room. It also will contain two restrooms.

Estimated cost of the new

structure ranges from \$100,000 to \$140,000 with final cost being determined by bidding. Bids probably will be opened the first week in November. Construction is expected to begin shortly after that time and be completed prior to the school year in 1972.

"Money used for this new addition will be funds remaining from the last bond issue," Supt. Kenneth Flory said. "Therefore, there will be no need for additional taxes or borrowing."

The new structure will join the high school on the north side of the gymnasium and extend north to the edge of the baseball field and east parallel to the gym.

## FFA plans barbecue October 23

The Hondo FFA Chicken Barbecue will be held at the Hondo High School cafeteria on Saturday, October 23 with serving hours being from 11:30 a.m. until 1 p.m.

This fund-raising activity is used by the chapter to help finance its Program of Work during the school year. These costs involve the annual FFA Parent and Son Banquet, District, Area State judging trips and FFA conventions.

The menu will consist of one-half barbecued chicken, slaw, pickles, onions, bread and iced tea. The meal might be eaten at the cafeteria or if you so desire you can bring your containers to carry the barbecue plates home," a spokesman said.

All tickets are \$1.50.

There are more than 90 FFA boys selling tickets at present. Place your ticket order with any of these FFA boys.

## Gold Star winners named

Gold Star 4-H Boy and Girl were named Monday night and are pictured in this shot by Father Victor Schmidtinsky. At the head table following the banquet are, left to right: Oscar Hairell, Gold Star

Boy; County Agent Glenn Bragg; County Judge Jerome Decker; County Home Demonstration Agent Barbara Fowler; Gold Star Girl Annette Aelvoet; and Mrs. Doris Saathoff, committee chairman.

## 4-H'ers pick Gold Star boy and girl at meet

Annette Aelvoet of Hondo was named as Gold Star Girl and Oscar Hairell of Devine was named Gold Star Boy at the annual Medina County 4-H Awards Banquet held Monday night in the McDowell School cafeteria.

They were presented Gold Star Certificates and \$25 Scholarships from the County Home Demonstration Council and 72 other 4-H Club Awards were presented to 4-H Club members for their record books and other activities.

### Gold Star Girl

Annette Aelvoet has been a member of 4-H for five years. She has completed projects in clothing, food preservation, food and nutrition, community beautification, recreation and leadership. She has served her local club as Girl Co-Chairman, reporter and council delegate. Her community and school has felt her leadership in the

Catholic Youth Organization, Future Homemakers of America, High School Band and as editor of the High School Annual.

She has represented the County 4-H at the South Tex-

## Pearsall set for revenge

If the Mavericks of Pearsall have anything to regret it is the fact they let Carrizo Springs slip up on them two weeks ago thereby dropping them from the district undefeated list in the opener for both teams.

And when one makes a mistake, one usually tries to find someone else to take it out on. So that's what the Mavericks have in mind Friday night when they take on the Hondo Owls in Barry Field.

They have all intentions of bringing their team, boasting good size, quickness, speed and an All District quar-

terback, to Hondo and take out that Carrizo Springs loss on the Owls.

"Pearsall has a good team," Hondo Coach Nelson Bippert said. "They have good size, a sound running game and a passing attack that can work."

The coach went on to explain that Dennis McGehee, Pearsall's man under, copped All District honors last year on a losing team. "He's good and he's a big 170 pounds," Bippert said.

"McGehee has some good men up front and fine runners behind him. Fullback John Sutton, who is among the

top 10 district scorers, is a good runner who carries his 180 pounds well.

"They like to throw to Number 10 Splittend Alan Lawler, who has good hands and good speed once he catches the ball."

In the offensive line Center Chuck Carroll tips the scales at 206 and moves well. On defense guard David Waldrum towers over the line at 271 pounds.

"So far this year Pearsall has operated from two formations a straight T and a Slot T," Bippert said.

The coach did not say so, but the fact the Mavericks have used only these two formations doesn't mean Owl fans won't see some of the wild formations utilized at Pearsall last year, because they can pass and might feel they have to against the strong Owl defense.

Pearsall's offensive starting lineup will include: Alan Lawler (80) left end, 150; Andres Garza (82) left tackle, 180; Robert Guerra (50) left guard, 160; Chuck Carroll (51) center, 206; Ike McKinley (61) right guard, 160; Dennis Wilson (74) right tackle, 192; David Studdard (81) right end, 190; McGehee (10) quarterback, 170; Gus Brown (26) left half, 158; Sutton (44) fullback, 180; and Marcos Vinton (42) right half, 161.

Steve Wilson (18) is backup quarterback.

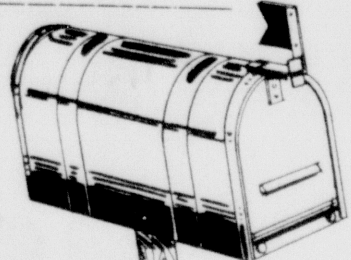

Coach Bippert said he expected no change in his lineup for Friday night.

And you had better believe it!

...Mavericks, Panthers, Dragons, etc.

(Editor's Note: The recent article in the Texas Star about the Hondo Sign has generated interest in the postcards available at the Chamber of Commerce. To sort of prove the sign does bring recognition to our city, we are printing the letters received by the Chamber.)

Howdy Hondo:

Would you mind sending me about six copies of the attached message which I understand is in post card form.

Dear Sirs,

Please send me one of your famous post cards of the sign at the edge of your city. I collect postcards and have them from all over the world.

Also, my father has told me many times of the cleverness of your sign and the charm of your city. Please find a stamp enclosed.

Thank you

Dear Sirs:

I saw the item about your sign in today's paper and I thoroughly enjoyed it.

I would love to have a "bunch" of your cards. I want to send them to friends in Alaska, Calif., and even to my daughter in Okinawa.

I intend to put "a little bit of Texas" in many places. Hoping to hear from you all real soon, and thanks much. I remain,

## Just What Is A Newspaper?

A newspaper is many things to many people.

To some, it is a reality, a living textbook that records each passing day of world history; to others, it is escape—a refuge of entertainment and relaxation after the day's chores.

To the housewife, it is ideas for new menus and new clothes and sensible buying.

To the mother, suggestions for raising the youngsters.

To the teacher, a homework assignment on current events; to schoolchildren, a notebook item.

To the lonely diner, a companion; around the family supper table, a topic of conversation.

To sports and theater lovers, who and what is playing, when and where.

To athletes and actors, scrapbook material.

To an unknown, it brings fame; to a well-known, it furthers his name.

To the publicity seeker, it is a haven; to the publicity shy, a source of annoyance.

To the seller, it means a quick response; to the buyers, many selections.

To some, it brings good news; to others, sad tidings.

To friends and neighbors, it tells about promotions, school achievements and who got married, who was born, who died.

To the voter, it is guidance; to a politician, friend or foe.

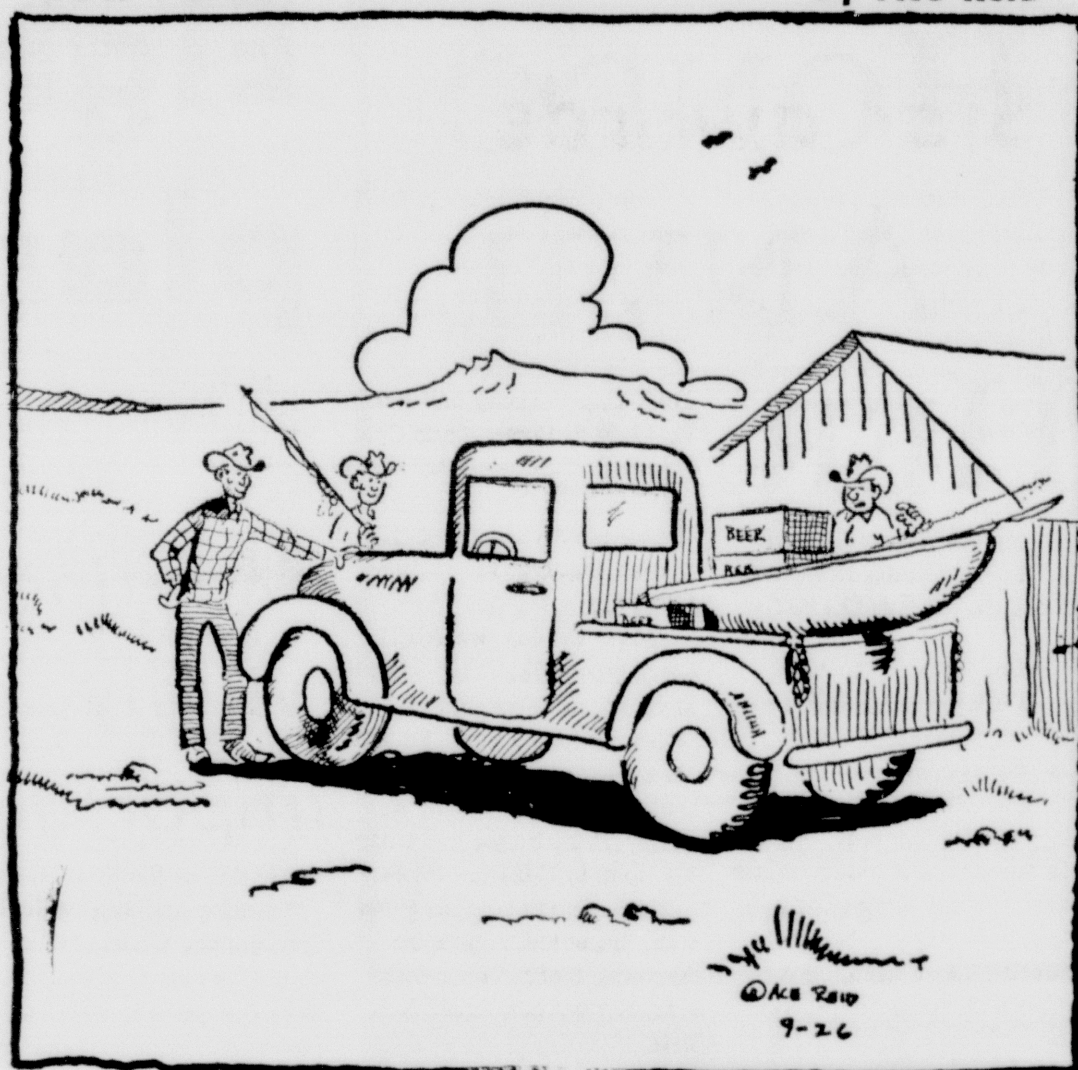

To opinion searchers, it stimulates thought.

To front porch sitters, it describes life beyond the horizon.

To the immigrant, it is a schoolbook that helps him learn English; to hunters of truth, it

translates the customs from which the immigrant fled.

To the living, it is a source of freedom and hope; for the dead, a tribute to their virtues.

To the hard-working, dedicated women and men who produce the newspaper—the clerks, the circulation department, the printers, the pressmen, the proofreaders, reporters, the editors, the business staff—it's a daily challenge to turn out the best possible example of their work, to provide service which is essential to the health and well-being of a growing, prosperous community.

To all who read this newspaper it means uncensored news; in many other countries, censored propaganda.

## Advertising is missed

By S. S. Talbert  
Dept. of Journalism  
U. of Mississippi

Newspapers and magazines, as a special service to soldiers in Vietnam, have produced skeleton editions, free of advertising, which could be delivered quickly and inexpensively.

Generally, the reaction of service men has been negative. "You just can't tell what's going on when the advertising is missing." Surveys indicate that they prefer the publications late rather than a few days earlier denuded of advertising.

This reaction would be of no surprise to the typical housewife who spends more time reading local advertising than she does reading news sections. But what do men in Vietnam find so interesting in advertising?

Some Vietnam veterans were questioned about the subject; the replies tell a lot about the news value of local advertising. "I was saving to buy a good used car as soon as I got home. That market was more interesting to me than some pap the mayor repeated every week," one GI said.

"Movie and other advertisements really told me more about what people were doing and the action back home than anything else. Reading the local ads made me feel at home," was another reply.

"Hell, I had to find a job when I got back. The job situation is fully explained in the want ads."

A less practical veteran said, "I like to keep up with the women—what they were doing like when I got back. You get full details on the gals in dress advertising."

In other words these men confirm that advertising is news, and that the best advertising is highly important news which is deliberately seached and read.

### Social Security

#### QUESTION:

I am 63 and would like to receive social security payments if eligible. I am employed in the building trade and work whenever I can get a job. May I stop my social security payments when I work and later start them again when I stop working?

#### ANSWER:

Yes. You may stop and start your social security payments as often as you start and stop working. You do not have to report your work and stop your checks unless you expect to earn over \$108 in a year, however. If you do earn over \$108 in a year, you may receive a social security payment for any month in which you do not earn over \$140 in employment and do not work in self-employment.

## Young Farmers take tour

The Hondo Chapter of Young Farmers of America held a tour and barbecue on Monday, Oct. 4, at D'Hanis.

The group toured the D'Hanis Brick plant. Other parts of the tour to local farms and ranches were cancelled because of rain. The group moved the meeting to

the D'Hanis Fire house for cards, barbecue and a short business meeting. Approximately 20 Young Farmers attended the tour.

The next meeting of the Hondo Young Farmers will be held Tuesday, Oct. 19.

Harlan Wolff, immediate past president of the Young Farmers, arranged the D'Hanis tour and barbecue.

## County's crude oil reported

DALLAS--Production of Texas crude oil last year again hit an all-time high while additions to reserves continued to lag, according to the latest compilation of the Texas-Mexico-Oil & Gas Association.

The state's oil fields produced 1.2 billion barrels of crude bringing the total for the past 51 years of recorded production to 84.1 billion barrels.

"Economic benefits from the production were felt throughout Texas," says Kenneth E. Montague, Association president. "As 205 of the state's 254 counties and producing oil wells. It is unfortunate that more oil was produced than was found in Texas--pulling our reserves down for the third straight year."

Medina County, which has had recorded production since 1901, had a total crude oil output of 4,520,943 barrels up to the beginning of 1971. The county production in 1970 was 259,392 barrels at the rate of 686 barrels daily.

Fifteen counties produced more than 25 million barrels with Andrews topping the list with 71,684,656 barrels followed by Ector with 68,562,247 and Scurry with 58,085,876.

Gregg remained the all-time champion with a cumulative production of 2.2 billion barrels. Ector is second with 1.7 billion barrels.

## Clean-up for Dist. convention, say Garden Clubbers

On November 2-3, Hondo will be honored as host to the Texas State Garden Club. In anticipation of visitors from many cities of Texas our Boy Scouts, Campfire Girls and 4-H Clubs and their leaders are banding together in a Clean-up Campaign to help make Hondoans prouder of Hondo.

Won't you fellow citizens of our fair city enter into a clean-up campaign with these boys and girls?

Homeowners won't you pick up, paint up, or mow to make Hondo more attractive? Lot owners won't you see that your lots are cleared of weeds and debris that make our town unclean and unattractive?

Every Hondoan should feel personal pride that Hondo is the site of a state convention and we have a right to be proud. It's a lovely town, truly God's Country. Let every visitor go home thinking

so too! Hondo Garden Club urges you to help Clean Up Hondo.

## Fall meeting in Ft. Worth

Woody Owl, the newest U.S. Forest Service symbol and central figure in an anti-pollution and environmental improvement program recently launched in Washington, will be featured at a luncheon Oct. 27 when Texas Garden Clubs, Inc. meets in Fort Worth. Woody Owl's slogan is "Give a Hoot - Don't Pollute".

Fort Worth will be the site of the 44th Annual fall meeting of Texas Garden Clubs, Inc. Oct. 26-28. The Fort Worth Council of Nationally Accredited Flower Show Judges will be the hostess club, according to Mrs. Robert H. Dooley, president of Texas Garden Clubs, Inc.

Tuesday, Oct. 26, will be taken up with registration, trustees, finance, executive committee and board of directors meetings with a pre-convention dinner in the evening.

On Wednesday, Oct. 27, the general assembly will be held and will be followed by the luncheon where Woody Owl will be introduced and featured. Mrs. J. R. Carpenter is decorations chairman for the meeting. Mrs. W. D. Bozek, Ennis, State Convention chairman and past Dist. II, Texas Garden Clubs, Inc. governor, will present the program at the luncheon. Her topic will be "The Changing World".

Wednesday evening the program for the dinner meeting will be "The Ten Biggest Mistakes You Can Make" by Mrs. Garland C. Kirk and L. K. Dabbs, who are members of the Avant Gardeners of Fort Worth and expert flower arrangers.

Thursday morning, Oct. 28, will be devoted to a general workshop on "How to Win Awards" with guidance and reports by various committee chairmen.

Four members of Hondo Garden Club will be attending the fall meeting. They are Mrs. Hilmer Haegelin, District VII Director; Mrs. Bruno Schweers, Corresponding Secretary, Dist. VII and State Chairman of Plant Texas Committee; Mrs. Mark Marshall, President of Hondo Garden Club; and Mrs. V. H. Crow, District Conservation Chairman.

## Trail riders help support Child Development Center

This year marked the ninth annual trail ride made by Medina County Riders to help support the Medina County Association for Exceptional Children.

The 1971 trail ride, which began at Natalia and ended at The Other Place near Hondo, was led by Rodney Mangold, trail boss, and Mike Crow, assistant trail boss.

The group presents a 11 proceeds from the big event to MCAEC, and this year some \$2200 was presented to Mrs. Carolyn Williamson, MCAEC president, by Rider president Ed Walton and secretary Pat Mangold.

Contributions in the past years have been used for various equipment and supplies needed at the Child Development Center located in Hondo but serving children from all over Medina County.

Mrs. Gwen Zerr has worked with the children of the Child Development Center, as a public school teacher, for eight years. Prior to that, the Center operated privately through the support of MCAEC. Mrs. Jim Amberson is employed by MCAEC as an aide to Mrs. Zerr, and Mrs. Millie Gonzales, a public school aide, also helps with work at the center.

Other events in the trail ride this year included a trail lunch served riders under the direction of Mrs. Aaron

Bendele, Castroville, and a dance at Koenig Park in Castroville. Approximately 50 door prizes, donated by merchants throughout the county, were presented at the dance.

"Many hours of concentrated effort go into making this ride such a success every year," Mrs. Williamson said, "and the faculty and staff of the Child Development Center, the officers and members of Medina County Association for Exceptional Children, and the people of Medina County are most grateful for those efforts."

## Four to attend state meeting

Four local conservation leaders plan to attend the annual statewide meeting of conservation district directors in McAllen next week.

Clarence P. Wurzbach, Harlan Wolff, and Frank Silvey, directors of the local Medina Valley Soil and Water Conservation District will go to McAllen. Everett Abbott, district conservationist for the Soil Conservation Service office stationed at Hondo, will also attend as a guest of the conservation district.

The theme of this year's meeting is "Districts Role in Environmental Improvement." Clarence P. Wurzbach, chairman of the Medina Valley district, said his group

has been involved in environmental improvement for years but is trying to step up such activities. He hopes the 3-day conference will point up ways this can be done.

Conservation districts are local-sub-divisions of state government which utilize and coordinate assistance from U. S. Soil Conservation Service and other local, state and federal sources. Their goal is to conserve and develop land, water, forest, wildlife and related resources for maximum benefit of all citizens.

Mrs. Wolff, Silvey and Mrs. Abbott also plan to attend the conference which will feature a ladies' lunch-

eon and a tour of homes in Reynosa, Mexico.

## Parents Stamp Out Drug Abuse With Facts

By Jerry Williamson  
Chief Of Police  
City of Hondo

Today's Subject: Why Drug Experimentation Is Dangerous

In the discussion of drug use and abuse with young children, often the youngster will say, "oh well, everyone tries marijuana once in a while" . . . or, "taking pills once in a while never hurt anyone, as long as you don't make a habit of it." Nothing could be further from the truth!

Children discuss "once-in-a-while" drug use among themselves and come to the conclusion that they are not endangering themselves with occasional experimentation. Their friends who have tried pills report that they have noticed no after-effects. Others who have smoked marijuana tell them that it isn't as harmful as regular cigarettes. So naturally, youngsters assume they are safe trying something "just once" or occasionally.

There are two very good reasons why these assumptions are incorrect. The first one is that scientific research has shown and this has been a known fact for many years, EVERYONE REACTS TO DRUGS DIFFERENTLY! In other words, some people have a high tolerance for marijuana, as an example. This means that it takes more marijuana to effect them than it does another person who has a low tolerance. There have been many cases of record where a youngster has tried a drug "just once" and it so adversely affected him that he committed suicide! Of course, this is a drastic example, but it has happened. Other cases of record show that the "just once" user of LSD sometimes has recurrence of the drug's effects on his mind for months, sometimes years afterward.

How do you find out your own personal susceptibility or tolerance for any given drug? You have to try it, of course! And, that is just the same, in many cases, as playing Russian Roulette with a gun! So, how a friend has reacted to a drug experimentation DOES NOT tell how you yourself will react or to what degree!

Making matters even more dangerous is our second factor. Drugs bought on the "street market" are usually never consistent. One time they will be "strong" and the next time "weak." The "pushers" often dilute the drugs with other materials to make them go further so they have more to sell. Then too, illegal drugs are shipped into this country from a variety of foreign sources. Different sources provide drugs of varying strengths and types, which still fall under the general term of the drug. For example, marijuana in Vietnam is much more potent than that sold on the streets of cities in the United States. Returning U.S. servicemen who have used marijuana overseas say that it takes four or five times as much marijuana bought here to give them the same reaction as foreign marijuana gave them!

In considering how to help your child avoid the temptation of drug abuse it is always best to start very early in the child's life. And, probably one of the most important things you can do as a parent is set a good example. Don't make a habit of running to the medicine chest for every ache and pain. Don't let the child come to believe that there is a chemical "cure" for every little physical feeling he may experience. Try to avoid the child observing you taking a pill "because I'm so nervous" . . . another "when I can't sleep," and still another "because I can't get awake and get going." These are excuses a child can give himself later on when he himself is offered the opportunity to try drugs, "just once."

Drugs are insidious because they create a false sense of well-being. Try to help your children, from an early age, to achieve satisfaction in life through true life experiences and accomplishments. The dreams and hallucinations created through the abuse of drugs can never equal the beauty, the challenge, the rewards of real living! And, the drug abuser it has been proved destroys his ability to enjoy and appreciate true life. Is it worth it? Of course not! And, this is our task; we MUST teach children these underlying dangers of drug abuse. They do not know these things instinctively. We MUST put forth the effort to spread drug education to the youth of our country and it must start at home with the parents to be effective and resultful.

Be with me next week for more facts on drug abuse. Facts and only FACTS can make us victorious in our war on drug abuse!

This week

That's all she wrote

by Edna McDade

Ramblin Rose had nothing on this itinerant reporter! Having helped to usher in the new year in Pennsylvania, and having returned there to witness the coming of spring to Amishland, I am now back in real Yankeeland where my tri-focaled eyes are seeing "the glory of the coming" of autumn to upper state New York, along the Canadian border. And what a glory!

Leaves have just begun to turn color on the trees that hug the roadsides. The more densely forested areas, where Nature's palette is really running riot, reminded me of my childhood delight upon receiving my first kaleidoscope at Christmas only the view is technicolored 3-dimensional on a wider and more awe-inspiring level.

October's bright blue weather is at its bluest best this week. It might be short-lived with winter trailing not far behind but, with the philosophy of Scarlett O'Hara to pattern after, "I'll worry about that tomorrow", when the sunshine and mildness that invites me outdoors today might well be "Gone with the Wind".

The view from my upstairs bedroom window includes an apple orchard where the fruit hangs heavy and beds of old-fashioned flowers still in bloom. Bush-tailed squirrels scurry about busy about the business of making sure their pantries are well stocked and blue jays dart through the trees adding their color to the panorama that delights me.

John's patio has a mint-filled corner, three rosebushes still supplying buds and full blooms, and it is enclosed on two sides by a solid white fence that looks like cedar but isn't. Alongside is an ample supply of wood with which to stoke the wide fireplace as soon as weather warrants the coziness of hearthside visiting or reading.

Indulged, I am being, and to the Nth degree. It is wonderful to be "family" again. Perhaps only those of us who now must live alone can appreciate such return which helps recapture cherished memories of days that were!

A few days before I left Hondo, I was introduced to a new tree, courtesy of staff members of the Soil & Water Conservation office, where I saw leaf and seed "samples".

Called a Chinese parasol tree, a sturdy one grows at the home of the CLARENCE MUMME, Sr.

Mrs. Mumme told me their tree was planted about 15 years ago and has self-propagated prolifically since then. This is the tree's history as I read it in one of GLENN DITTMAR's books from his excellent library on matters horticultural.

Also known as the Varnish, Phoenix or Bottle tree, it has been cultivated since 1757, is a native of China and Japan, has a smooth green bark and reaches 35 feet in height. Cultivated in the U. S., it grows easily from seed globules which grow alongside the leaves and escape to roadsides or thickets.

A most unusual and interesting tree, as I believe you will agree when you see it. How about growing more of them in Hondo?

Mrs. ALFRED (Iris Strawn) BADER has a genealogy of her family that dates from the year 1680. Can you top that?

In it is a picture of Iris, age 4 1/2, looking much as she does now, smiles and all, only there was considerably less of her. I found the reading of some of the facts fascinating and Iris was generous to let me have the books for a few days.

Included in the old histories were copies of some early day wills. One such specified: (May 25, 1667) "... I bequeath to my son one feather bed and furniture of 5 pounds sterling price and 2 cows with calves at their sides". Another (1709) bequeathed land and plantation "to my son as long as he is a batchilder". Another ancestor left to his Negro slave "a sorrel horse called Hops". And one father left "One buccaneer gun, one chest, one mare which is unbroke and all my wearing clothes".

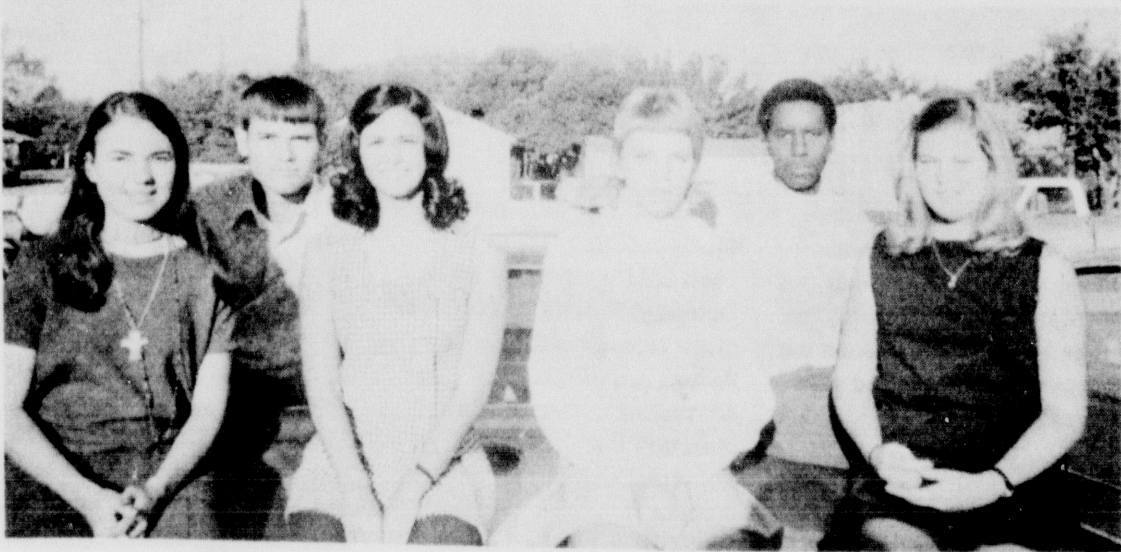

One of Iris' forebears was described as "A modern Nimrod among the abundant game that thronged the primitive wilds of Conecuh County, Alabama, who could penetrate barefoot and with short-cut trousers the tangled thickets of briar and the dense everglades of cane, chasing flying deer or retreating bear ... Though unlettered, he was a speaker of marked ability in religious assemblies. In early manhood, he had a passionate fondness for pancakes & molasses and indicated an ambition to become sufficiently wealthy to have them everyday instead of only on Sunday. He finally attained his goal but declared that most every man had a pancake & molasses point in his life though some never reached it". Interesting ancestry, what?

## Health program planned in D'Hanis

Texas Health Careers Program will present a Health Careers Assembly for D'Hanis

High School on Thursday, Oct. 21, at 2:15 p.m. The unique presentation

by Spencer Guimarin, director, Texas Health Careers Program, is designed to in-

roduce exciting career opportunities in health care to all students.

With over 300 different careers available, the health-care field offers employment to people with a wide variety of education and training. The health-care field is projected to employ more than any other industry in the United States by 1975. Texas alone has needs for over 20,000 trained personnel today.

A project of the Texas Hospital Education and Research Foundation, the Texas Health Careers Program was begun in 1964.

## Soil fertility meeting set

A Medina County soil fertility meeting will be held Tuesday, October 19, in the Hondo High School cafeteria at 8 p.m.

All producers in the Medina County area are invited and encouraged to attend as the latest research information on soil fertility will be discussed, says Glenn Bragg, Medina County Agricultural Agent.

Dr. Carl Gray, Soil Chemist, Texas A&M University and Dr. Richard Hoverson, Area Agronomist, will be the guest speakers on the program. Items to be discussed by the two extension specialists include soil testing, use of micronutrients, plant tissue test, plus several other interesting topics.

All producers with questions pertaining to crop fertility should attend, according to Bragg.

The program is sponsored by the Medina County Coop's Committee and the Hondo Young Farmer Chapter. The Young Farmers will hold a short business meeting in the Vocational Agriculture classroom immediately following the program.

## NOTICE OF SALE PERSONAL PROPERTY

STATE OF TEXAS  
MEDINA COUNTY

By authority of the uniform warehouse receipts act, as passed by the 36th Legislature of the State of Texas, and the terms and conditions of our storage agreement represented by the warehouse receipt issued for each lot of goods hereinafter described: notice is hereby given that on Saturday Oct. 23, 1971 at 10:00 a.m., there will be sold at public auction at "Tondre Transfer & Storage" located at 2002 Ave. X, Hondo, Texas to satisfy the delinquent packing, hauling, storage, labor and all other charges the following lot of goods, including all pieces of household goods and office furniture, personal effects, contents of all boxes, barrels, trunks, chests, or other containers, musical instruments, or any other articles that may be in the lot, viz:

## FB holds meeting

The Farm Bureau of Medina County held their annual convention Saturday night in the Hondo High School gymnasium following a dinner in the school cafeteria. The convention was the best attended annual meeting on record and featured a country band and 11 door prizes.

The convention re-elected seven directors and one new director for the next two years. They are L. J. Wernette, Harley Tschirhart, Ralph Graff, William Reus, Colby Heyen, Robert Fessler, Oscar Nester and Charles F. Brown, Sr.

Reus of Hondo was named secretary-treasurer of the

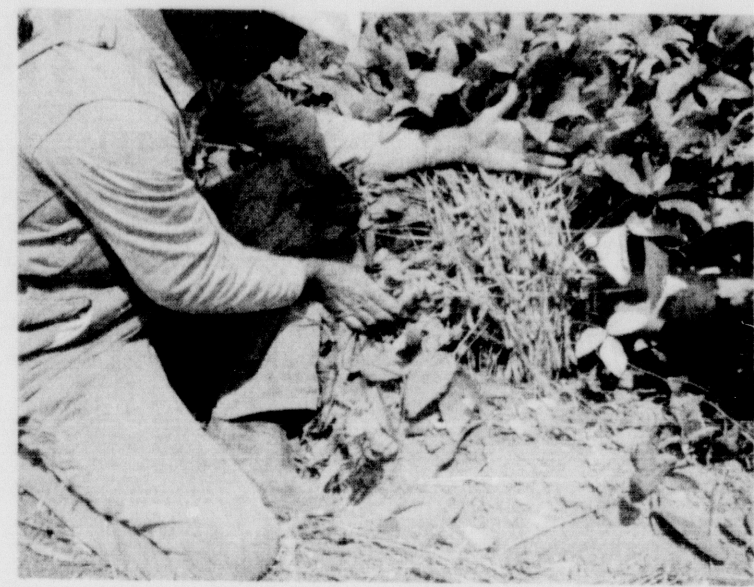

Bureau for the next year; Graff, also of Hondo, was re-elected vice-president; and a Dunlay man, R. A. Rodgers, was elected president of the Farm Bureau for the next year.

The Bureau also passed five resolutions at the convention covering topics ranging from education to bureau policy. The convention recommended rural zoning be regulated by rural members of the county to be zoned and own land in the county.

They also recommended the State of Texas take over full operation of the minimum foundation program and went on record as urging Congress to pass legislation that would prohibit transportation industries from crippling the nation through nationwide strikes and further urged congress not to pass legislation making the farmer or ranchers responsible for the nationality of the persons hired.

On Farm Bureau policy the convention went on record as favoring a retirement program for Farm Bureau secretaries and also went on record as authorizing management of the Farm Bureau Insurance program to cancel agents' contracts, if deemed necessary.

The convention also rejected the opportunity of receiving an additional accident insurance package.

## Inspects Soybeans

Glenn Gooding gives a good look to his soybean crop, which is the only one in the county at this time. He has two acres under cultivation. Glenn Bragg, County Agent, says that three years ago a three-acre irrigated crop near Devine produced some 23 bushels to the acre. He also said Gooding's crop looks much better and it might produce up to 50 bushels per acre, but if it doesn't hit that high it will be well over 30 bushels per acre.

## Director elected by Museum

Election of Mrs. L. R. McVey of Castroville was elected Monday night as the 13th member of the Medina County Museum Board of Directors.

With the two latest board members present, the Board had a full house of directors attending the meeting. Dennis Winright and Mrs. Olen Haby are the newest members.

Treasurer Mrs. Sally Brucks gave a financial report for the month of September which showed that at the first of the month the Museum had \$3,205.58 in the bank.

Deposits amounting to \$79.49 raised that total to \$3,285.07.

Withdrawals during the month left the total at \$1, -

657.96. However, some expenditures were for plates and historical sketches, many of which the Museum still has on hand. Therefore the inventory would actually increase the amount of money the Museum now has.

Subjects discussed at the Monday night meeting included: Museum Day 1972--set for the first Saturday in May; possible financial projects; membership nameplates; and the membership efforts being made.

The sergeant is a 1956 graduate of Natalia High School.

## Museum news

Mrs. Verlyn (Nancy) Knowles and daughter, Karen, visited our Medina County Museum one Sunday afternoon while they were waiting to meet members of (San Antonio) Scout Troop 402.

The Scouts had been on a 2-day hike to Bandera and were returning via the Bandera Road and US 90. About 20 Scouts were seeking credit toward their hiking badges. With them were Scoutmaster J. W. Field and two assistants, Mr. Knowles and Lt. Quel of Vietnam.

The visiting Lieutenant is assigned to Language School at Lackland AFB. Mrs. Knowles said that he works with boys in Vietnam and volunteered his services to the SA Troop.

Some of the Scouts on the long hike had September

birthdays so a group of mothers and sisters took cakes and cokes to them while they were en route, for a real surprise birthday party.

A highlight of the trip was a stop to see the dinosaur tracks on Tarpley Road.

Among old books donated to the Museum is a USDA Yearbook of Agriculture - 1927.

Might be of interest to today's Young Farmers to note what changes have been made in farming know-how in the past 44 years.

Local visitors included Johnny and Elise Garcia Contreras and David Barrios and his wife. One of the young men said he had a few items to contribute for the

In one of the quietest sessions in some time, the Hondo City Council Tuesday night opened bids on the lease of Airbase property and assured concerned citizens that the Council is following

up on subjects discussed at the recent public meeting on drainage and housing.

Henry Dominguez asked the Council if a plan had been formulated to alleviate flooding, and, if not, when

such a plan might be announced.

Mayor George Brucks replied that a letter had been mailed to the Corps of Engineers asking assistance on a survey of the flooded areas.

He also said this letter had been followed up by a telephone call and Hondo has been assured the Corps of Engineers will send someone out to make the survey and give suggestions.

The Mayor also announced that a meeting was to have been held Wednesday night, October 13, with J. C. Cooley, a representative of the Alamo Area Council of Governments, to discuss which direction the City might go to help alleviate the housing problem.

Bids were opened on the lease of Airbase property, but final acceptance was delayed until Wednesday night at the special meeting of the Council.

This year the property had been divided into four areas and bids could be submitted on any one or all four tracts for either one year or five years. Bids for five years on all tracts totaled \$64,678.25, an average of about \$5.75 per acre over the five years. This total figure fell far short of the total received by the City five years ago when the property was first leased.

Bids submitted included: Tract 3--Fred L. Graff and Richard W. Schweers, a partnership, five years, \$12,476.10; Tract 2--Arnold Saathoff, five years, \$13,500; Tract 4--Pope & Son, Inc., five years, \$21,365.05; Tract 4--H. Milton Highsmith, Gene Barber and Ray Highsmith, a partnership, five years, \$20,843.70; Tract 2--Hondo Livestock Auction, one year, \$2,727.97; Tract 2--Hondo Livestock Auction, five years, \$12,107.25; Tract 1--Hondo Livestock Auction, five years, \$17,337.10.

Lloyd Hermes headed off the departmental reports by saying that his department had finished their paving for the year. He also mentioned that the City has been called to task by the Air Control Board for burning at the city dump. At the same time the Board reportedly cautioned Gary Aircraft and Universal Rumble about their burning procedure.

Hermes said the City needs to begin thinking about a new dump ground location within a year. "This one is nearing capacity right now," he cautioned.

Fred Johnson said his electrical revenue was up this September over same period last year, as were the complaints from customers over higher bills. "The revenue increased some \$10,000 over last year," he reported. "This can be accounted for by an increase of 108,000 kilowatt hours consumed as well as the recent rate adjustment which allowed the city to charge for fuel meter charges they had never passed on to the customer."

Elmer Faseler reported that during the past month the average daily gallons pumped by the city amounted to 1,222,793 gallons. "We do need some fire plugs," he told the Council. "We have places for about eight but can get by right now with placing only three or four." Council authorized him to order five fire plugs at about \$300 each.

Faseler also told the Council his department will need a new garbage truck in the very near future and received authorization to seek bids on such a truck. He explained that the workload has increased some 25 percent since the recent action where the

Council began charging garbage fees to all utility connections.

Jerry Williamson introduced the newest patrolman to his police department, Niño Martinez, who came to Hondo from Castroville. Williamson said he is now attending school in Uvalde and will soon have his basic certificate.

The Police Chief said that during the past month the issuing of speeding tickets had increased as had the family disturbance calls. He reminded the public that between the flashing school signs on Highway 90 there is no tolerance on the 30 miles per hour posted speed limit.

Tony Garcia told the Council that he, and others, had noticed police cars driving at excessive speeds through the streets in the northwest part of town. Williamson answered that this might occur at times when Patrolmen are answering calls in that area. In final action before recessing the meeting until Wednesday night, Mayor Brucks appointed Felix Reyes to the Planning and Zoning Commission. He fills the vacancy by Jack Perez being removed from the commission due to lack of attendance at meetings.

## Scout Country BSA

"Scout Country BSA" is a new Scout show scheduled for Saturday, Oct. 23, at the McGimsey Scout Park. This is a big day in the life of every Cub, Scout and Explorer in the Alamo Area Council.

Troop 219 will participate in Scout Country-BSA by having a booth displaying and demonstrating the Caddo Indian Hogans and Crafts. This effort is to move Scouting forward and demonstrate our program to the community, and show Scouting to boys not yet old enough to join.

Other efforts in this month's activities include the supporting of the Hondo Junior Garden Club reclamation center in manning the pickup station by Scouts, Tony Tschirhart, Mike Graff, Chris and Douglas Cole, Joel Hanemann, Owen and Craig Heath, Brian Bader, Johnny Kalinowski, Robert Rendon and Rene Sanchez.

A program by the South Hondo 4-H Dog Care and Training group to assist and develop interest in Scouts to apply for Dog Care Merit Badges. A campout to the Watler Burrell Ranch where Scouts participated were Rattlesnake Patrol, Ronald Land, Rene Sanchez, Johnny Kalinowski, Albert Hernandez, and Craig Heath. Owl Patrol, Mark Graff, Mike Graff, Chris Cole, George Jones, Joel Hanemann, Owen Heath, Jim Weynand.

Members of the Troop worked on tenderfoot, second class, first class, star and life requirements while on the campout and working weekly on their health merit badges in advancement.

## Conservation districts' role in environmental improvement told

The role of conservation districts in environmental improvement is the theme of the 31st annual statewide meeting of conservation district directors to be held in McAllen October 19-21.

Clarence P. Wurzbach, chairman of the board of the local Medina Valley Soil and Water Conservation District, said plans are being made to send a delegation from the local district. The annual meeting is sponsored by the Texas State Soil and Water Conservation Board.

"Our district is involved in a wide range of activities which benefit the environment," Wurzbach said. "Conservation measures reduce sediment, the state's biggest pollutant. Sediment fills lakes, streams, bays and estuaries; it kills fish and ruins their spawning grounds. Treatment of land subject to wind erosion cuts blowing dust, the state's worst air pollutant. We also try to tailor our work to enhance wildlife habitat, outdoor beauty and recreation."

Wurzbach also pointed out that upstream watershed protection projects sponsored by conservation districts, counties and cities have vast environmental benefits. Floods not only damage homes and other property but they also kill people, wildlife and livestock.

Conservation districts are trying to step up all environmental activities. Wurzbach said he hopes the discussion at the annual meeting will point up ways this can be done.

Speakers during the conference in McAllen will include David Brune, general manager of the Trinity River Authority; State Representative Bill Clayton of Springlake; State Senator Murray Watson of Mart; Clyde W. Graham, state conservationist for the Soil Conservation Service; and Albert Roach of Paris, chairman of the

State Soil and Water Conservation Board.

The Texas Association of Soil and Water Conservation Districts, one of the state's oldest conservation organizations will also meet and elect officers during the state meeting. Doyle Hutcheson of Weatherford is now president of TASWCD.

Conservation districts are local sub-divisions of state government. They utilize and coordinate assistance from the U. S. Soil Conservation Service and other local, state and federal sources.

# San Geronimo recharge dam considered

The Board of Directors of the Edwards Underground Water District last week considered the report of Lodal & Bain Engineers on the investigation for a possible recharge dam to be constructed with District funds on San Geronimo Creek at about the Bexar-Medina County line.

The Engineers presented detailed studies for two alternate methods of effecting the recharge and cost estimates at a Board meeting on October 5, 1971.

All of the affected landowners were present as well as a large number of other interested citizens, and all of the problems involved were discussed at considerable length. The meeting was held at

Sammy's Cafe in Castroville. It was generally agreed that the dam would be beneficial and should be built, but the landowners who would be affected by the construction found that the necessary lands and rights-of-way, particularly the matter of access to one of the owner's property, could not be resolved satisfactorily.

The possibility of this right-of-way difficulty had been foreseen, and the engineers presented an alternate scheme providing for a small structure on the Fred Ewert property at the lower end of the Balcones fault zone with a holding reservoir upstream from which water could be released at the rate which

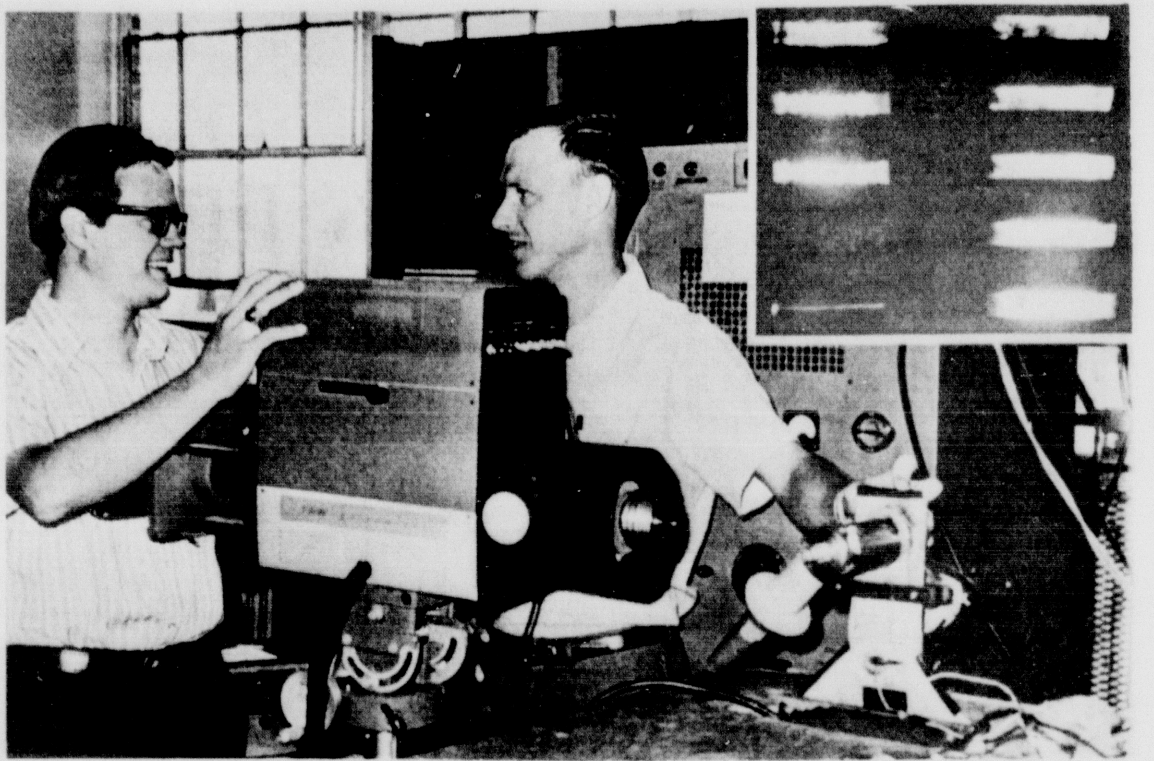

they have been consulted in the field and agreed to the scheme proposed. After the landowners have indicated agreement with the necessary physical relocations and easements, the District will negotiate with each one individually with a view to determining whether or not the acquisition is within the financial capabilities of the District.

It is intended to execute this entire project with funds which the District has on time deposit.

Because of the very small area of Edwards limestone exposed in the streambed on San Geronimo Creek, most of the water passes across the recharge area and is discharged into Medina River.

Recent heavy rains and high runoff on the creek enabled the U. S. Geological Survey to measure flow and losses to the underground reservoir. The engineers estimate that a recharge structure at this site would be 90 percent effective, and that the cost of water recharged amortized over a period of 20 years would be one cent per 1000 gallons.

## Fast action

Electrical engineering graduate students James E. Thompson, left, and Emanuel Honig of Texas Tech University demonstrate the use of a \$30,000 camera which can take a picture in five billionths of a second. The camera is used in the Plasma Laboratory to record the action of an exploding wire -- part of thermonuclear fusion studies in the Department of Electrical Engineering.

The upper right insert shows a sequence of pictures taken by the camera: lower left -- the start of the explosion and, upward, as the explosion expands; lower right -- the height of the explosion and, moving upward, the cooling. Honig is the son of Mr. and Mrs. William Honig of Hondo.

## Woman injured Tuesday

A Hondo woman received minor injuries in a two-car accident Tuesday evening at the intersection of Avenue K and Highway 90. She was identified as Deana Rodriguez of Hondo.

Mrs. Rodriguez was taken to Medina Memorial Hospital for observation suffering from apparent minor injuries. She was a passenger in a car driven by 23-year old Ramiro Rodriguez of Hondo.

Driver of the second auto was Dean Wiemers, 17, also of Hondo. Police said both drivers escaped injury.

The accident occurred about 6:30 Tuesday evening at an intersection in which the traffic lights had not been operating since Sunday and only flashing signals were working.

This traffic signal was the subject of discussion at the City Council meeting. Council was told Texas Highway Department maintains these lights and have been notified of this condition.

## We think... Fabacher Brau's in Town

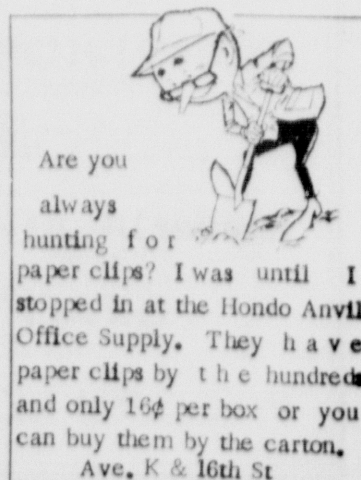

We just don't know. All reports indicate our first batch is selling out. We should have anticipated this. After all, Wolfgang formulated and brewed Fabacher Brau to be a very light, but different beer. The difference is that Fabacher Brau is brewed exclusively with European hops, and that's also the problem—we're running out of hops. (We understand that has some big national breweries chucking. Well, we never intended to brew enough for the

world. Just for some of our friends in a few cities.) So, if you see some Fabacher Brau around... grab it! And if you don't see any, be patient. Wolfgang's in Europe trying to import more of those hops, but when you're as choosy as Wolfgang that takes time.

The difference is imported

# Owls smother Cotulla Cowboys by 40-0 score

GRINDING OUT YARDAGE  
... Kebo made 280 of them

Inclement weather and a week-long rain failed to dampen the Hondo Owls fighting spirit Friday night and

they gave the Cotulla Cowboys a thorough 40-0 scratching to take their second straight win in District 28-AA.

Tailback Keith Ligon continued his torrid running by racking up an unofficial 280 yards on the ground. Much of

this total came on two scoring runs of 55 and 99 yards. The long scoring jaunt came after Lonnie Knowles

halted Cotulla's deepest penetration of the night by intercepting a Cowboy pass on the Hondo 1-yard line.

On the first play from scrimmage, Quarterback Tom Hill pitched out to Ligon who skirted right end and by the time he reached the 15-yard line was clear of everyone.

In addition to his two TD runs, Ligon also ran over two two-point conversions.

Hill scored the first tally on a 1-yard buck. Mark Buescher whipped out 19 yards and a touchdown, and the Owl passing game connected on a 46-yard scoring aerial from Hill to Eric Grant.

Hill ran over three extra-point conversions.

Unofficial statistics showed: First Downs--Hondo 17, Cotulla 11; Yards Rushing--Hondo 426, Cotulla 94; Yards Passing--Hondo 117, Cotulla 54; Passes--Hondo 4-7-2, Cotulla 6-20-4; Fumbles Lost--Hondo 2, Cotulla 4; Punts--Hondo 1-31, Cotulla 6-31; Penalties--Hondo 2-30, Cotulla 3-25.

## Hondo rated eighth

The Hondo Owls now rest comfortably in 8th place in the latest statewide Double A polls.

Three top 10 teams fell last week and dropped from the ratings. The pollsters then voted Hondo to number eight.

TIE 'EM UP!  
... and they did 40-0

## Lee Trevino tells why he is a superstar in The Star

Lee Trevino of El Paso plays supergolf because his wife is so expensive -- or so he says in a Texas Star interview Sunday.

Other articles describe Port Arthur's spectacular Cav-O-Leade, an old courthouse turned wax museum at Blanco, and jazz music as played

by two of the best at San Antonio.

Not even a threat of hurricanes can stop the Port Arthur oil celebration, now showing for the 19th time, reports Bill Maddox. Fifty thousand will be present for the spectacle.

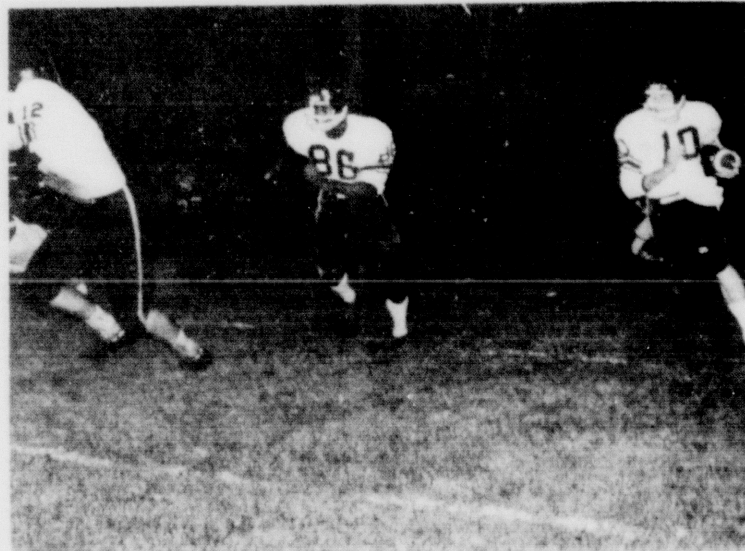

Alan Hawes is a British

man of action who has things buzzing at Blanco. He's the man who brought a monorail to the HemisFair; now he's enamored of the Old West, as Weldon Hart reveals.

The Jim Cullums, Jr. and Sr., play traditional jazz with a Texas twist and discover that their kind of music has as much appeal as ever. Joan Hafernick presents an interview with these two music masters in The Star.

As to Trevino -- old Super Super Mex comes through with a bushel of laughs in a story well told by Sam Blain. Watch out for Lee when he gets back into his best physical condition. His mental condition is superb.

Wanda J. Campbell answers some pertinent questions. Wick Fowler puts his needles into a light vein, and Mary Faulk Kooek has a way with sandwiches -- all for Sunday reading in the Texas Star which can be found in the Sunday Express-News.

BLOCKERS OUT FRONT  
... Turner, Grant, Hill

## District 28-AA

Southwest  
The Dragons kept showing power to down Carrizo Springs 28-0. They scored through the air and on the ground, with QB Charles Guzman, Rodney Livingston, Hector Ruiz and Charles Squires and Tommy Wasser doing the scoring. This win helped point to the Hondo-Southwest game (in Hondo on November 5) as the game to decide the District championship. The Dragons are undefeated, but have been tied once.

Pearsall  
Until Carrizo Springs slipped up on Pearsall two weeks ago, the Mavericks were going great guns. This past week they jumped back into the win column by nipping the Medina Valley Panthers 12-8. Pearsall can be tough and Friday night they will invade Barry Field and Owl fans will be able to judge how tough they are when the final gun sounds.

Devine  
The Warhorses sure hit the winning trail again by walloping Poteet 58-12. One of Poteet's scores came when Randy Mangum intercepted a pass and was heading down the sidelines toward paydirt when

a Devine player came off the bench to make a tackle. Officials gave the TD to Mangum.

Hondo  
The Owls, led by the over 200 yards effort of Keith Ligon, romped over the Cotulla Cowboys 40-0.

## D'Hanis defeats Holy Cross 46-6 on Saturday night

The D'Hanis Cowboys, seeming to improve with time, defeated the Holy Cross Jr. Varsity 46-6 Saturday night.

In the first period, Bobby Joe Rothe started the Cowboy scoring with a quarterback sneak from the 2-yard line. David Santos converted for the PAT. Minutes later, the same duo collaborated for another seven points; this time with Rothe carrying it 32 yards for a score and Santos converting.

Rothe displayed his passing ability as he completed a 25-yard toss to Richard Rothe for 6 points. The conversion was missed. Just before the second quarter ended, B. Rothe plunged one yard to finish the first half's scoring. Santos converted, leaving the score 27-0.

The Cowboy defense went into action in the third quarter as Spencer Burrell picked off a Holy Cross pass and took it 30 yards for the score.

The conversion failed, D. Santos, working from the backfield, dashed 25 yards for another Cowboy score. The conversion try was no good.

The second half saw a change in personnel as the reserve troop took over for the most part for the starters. Rick Rothe tried his hand at the quarterbacking spot and threw to Fidencio Garcia for 24 yards and a score. Santos converted.

Holy Cross, not to be left off the board, scored on a

75-yard pass run combination from Freddy Garcia to David Espinosa. The try for 2 points was unsuccessful.

The Cowboys displayed a sparkling offense and the defense led by David Nester (with 2 interceptions), Spencer Burrell, Augie Rothe, Ralph Sarabia and Sostenes Garcia proved to be no small factor in the D'Hanis victory.

This week the St. Anthony's Yellowjackets will meet the Cowboys in Cowboy Stadium at 8 p.m. Saturday night.

## B-Teamers host Pearsall

"We finally put it all together," Coach George Reddell said in describing his B-Team victory over Boerne 22-0.

Scoring for Hondo were Bobby Cox, Brian Finger, Ray Garcia and Doug Helvey,

who caught two 2-point conversion passes. Boerne scored six points after the clock ran out to put their only tally on the board. Earlier in the evening

Coach Glen Schweers' Freshman Team walloped Boerne 44-0.

Both teams host Pearsall today (Thursday) on Barry Field. Freshman game time is 6 p.m. and the B-Teamers follow up at 7:45 p.m.

"Pearsall has a pretty big and fairly strong B-Team," Coach Reddell said. "So we should have a pretty good tussle on Barry Field."

### Here In Hondo

Mr. and Mrs. Andrew Braden, Mrs. Freda Braden of Hondo and Mrs. Alma Burks of D'Hanis spent the weekend in Houston. They visited Mr. and Mrs. Joe Horn and sons. Mr. Horn is recovering from open-heart surgery performed in that city recently.

Mr. and Mrs. Emil Britsch had as guests to celebrate Mr. Britsch's birthday, their daughters, Jonell Schmitt and her daughter, Joy, from Oak Ridge, Tennessee and Marjorie and her husband, Ralph Huffman and sons, Kerry and Tracy, from Houston. Their visit was a most enjoyable occasion for the Britsch family.

lot W-1/2 4-5; Rosalio Silva, blk 1, lot 11, changed to \$7.51; Josefino Tapia, 1 acre 100 X 150; Robert Teague, blk 35, W half 7-8; Jesus B. Vasquez, blk 40, lot 9; Juan Ybarra, blk 1, lot 8; J. A. Yruarte, blk 13, lot 11.

## H. Eckhart is UT Band member

Harley Eckhart, son of Mr. and Mrs. H. D. Eckhart, has been selected to be a member of the University of Texas Longhorn Band for this school year. He is one of 70 new members selected to participate in the 300-piece band.

The band made its first appearance at the Texas-Texas Tech football game before 76,000 people. Last Saturday, after the new members formal initiation, the band was joined at halftime by the Alumni Longhorn Band. Other conference football games, which include several television appearances, will also be made by the band this year.

Eckhart is a 1971 graduate of Hondo High School and served as drum major for the Owl Band.

### SABO'S INTERNATIONAL CHIMPANZEES

The Sabo Chimps are one of more than 40 top circus acts coming to the 28th Annual Shrine Circus, October 12-17 at Joe Freeman Coliseum in San Antonio. Proceeds from the 5-

ring circus go to the Alzafar Shrine Temple Charities, which include Shrine burn centers and hospitals for crippled children.

### Here in Hondo

Mr. and Mrs. L. F. Rucker spent the weekend in Robstown visiting her son and family. Mr. and Mrs. Kenneth Norton.

Mr. and Mrs. Nelson B. (Burt) Van Duyn of St. Petersburg, Florida, spent several days here last week visiting the Oscar Batots, the Clarence Hasses and the Bruno Schweerses.  
It was 28 years since the Van Duynes lived in Hondo, when Mr. Van Duyn, a staff sergeant in the Air Force, was stationed here at the Hondo Navigation School. They thought Hondo had really changed and grown since 1943.

## Annette Aelvoet on staff

LUBBOCK--The Texas Tech University yearbook, La Ventana, has a number of new staff appointments for the 1971-72 school year. The yearbook is made up of various magazine style sections--playboy, future, town and country, tyme, freshman, sophomore, junior and senior view; Life Mademoiselle, Vogue, Esquire, Look and Sports Illustrated.

Annette Aelvoet, freshman liberal arts major, will be working on the staff of the Life section. The Life magazine deals with many aspects of college life and specifically with the life of the Texas Techsians.

Miss Aelvoet is the daughter of Mr. and Mrs. Rene Aelvoet of Hondo.

## Chamber of Commerce

By Harry Filleman  
Mgr. Chamber of Commerce

Did you ever wonder what "little goodies" you might be able to pick up at the Hondo Chamber of Commerce office?

Well take a look: How about a 1971-72 Texas Hunting Guide? Or would you rather have a U.S. Department of Commerce Climatological Summary of Hondo. In plain language this is a history of the weather in Hondo.

History buffs might want to see the new Guide to Official Texas Historical Markers compiled by the Texas State Historical Survey Committee.

And if you are planning a trip in Texas the 1971 Texas Trails magazine with maps is a must.

Now, little more on the personal side:

We have many applications for household help, office jobs, accounting and clerks. Employers might like to look these over and find that right employee to feel that spot.

Note to landowners: If you have hunting leases, seasonal or day, we have a long list of individuals and groups from over the state and out-of-state who desire to hunt in the Hondo area. Let us know.
